"Identification and characterization of a novel protein kinase,
TESK1, specifically expressed in testicular germ cells.";
J. Biol. Chem. 270:3131-31337(1995).

-I- FUNCTION: DISSPLAYS SERINE/THREONINE-SPECIFIC PHOSPHORYLATION OF
MYELIN BASIC PROTEIN (MBP) AND HISTONE IN VITRO. PROBABLY PLAYS A
CENTRAL ROLE AT, AND AFTER THE MEIOTIC PHASE OF SPERMATOGENESIS.

-I- TISSUE SPECIFICITY: SPECIFICALLY EXPRESSED IN TESTICULAR GERM
CELLS.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                Eukaryota; Metazoa; Chordata; Craniata; Vertebrata; Euteleostomi;

"Identification and characterization of a novel protein kinase,"
TESKI, specifically expressed in testicular germ cells.";

J. Biol. Chem. 270:31331-31337 (1995)

-I- FUNCTION: DISPLAYS SERINE/THREONINE-SPECIFIC PHOSPHORYLATION OF MYELIN BASIC PROTEIN (AMP) AND HISTONE IN VITRO. PROBABLY PLAYS CENTRAL ROLE AT, AND AFTER THE MEIOTIC PHASE OF SPERMATOGENESIS.

-I- DOMAIN: THE EXTRACATALYTIC C-TERMINAL PART IS HIGHLY RICH IN PROLINE RESIDUES.

No. is the number of results predicted by chance to have a
score greater than or equal to the score of the result being printed,
and is derived by analysis of the total score distribution.

```
The invention relates to human protein tyrosine kinase (PTK) receptors and their corresponding cDNA molecules. PTK receptors are useful in providing immunological probes for differential identification of the tissues or cell types present in a biological sample. PTK is used in methods for the diagnosis, prevention and treatment of various disorders related to PTK such as immune system disorders (severe combined immunodeficiency (SCID) inflammation); hyperproliferative disorders (neoplasm, sarcoidosis); cardiovascular disorders (arrhythmia, atherosclerosis); central nervous system disorders (multiple sclerosis), neurodegenerative disorders (Alrhahmer's disease, Parkinson's disease); blood coagulation disorders (Alrhahmer's disease, Parkinson's disease); blood coagulation disorders (Alrhahmer's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma, thing); crohn's disease); respiratory disorders (asthma); thing); crohn's disease); respiratory disorders (asthma); thing); crohn's disease); respiratory disorders (asthma); thing); crohn's disease); respiratory disorders (asthma); thing); crohn's disease); respiratory disorders (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease (asthma); thing); crohn's disease
